Friday Aug 10th

This day Begins with Moderate Breezes from S W and clear weather Stearing & Sounded several times got 32 to 50 fathoms or water mid Part fresh Breezes and good weather employed in Repairing the Main Gaff topsail going to send it up after they send down the larum Best Running Along the East shore Later Part fresh Breezes and hazy weather

Saturday Aug 11th

This day Begins with fresh Breezes from S W and Raining weather cleared up the foretopsail and hauled the Ark to the wheelwart until Daylight kept off Stearing & by & made all sail mid Part strong Breezes and good weather Stearing & & cited the Island hauled up to N E Stearing Along Mansfield Island Later Part fresh Breezes and good weather

Hudsons Bay

Sunday Aug 12

this day Begins with fresh Breezes from N & W and thick weather and Rain hauled up on the wind heading N & by E mid Part light winds and Rain squalls employed in sending down the bowsprit and sent up the main Gaff topsail cited Nottingham Island Running Along the Island about 15 miles off shore Steering S & Later Part Moderate Breezes and cloudy weather

Monday Aug 13th

this day Begins with fresh Breezes from N and hazy weather hauled up steering S & E and set in fog mid Part Moderate Breezes and clear up cited Charles Island Running Along Charles Island Between Cape Wigs steering S & E and very good weather Later Part strong Breezes and clear

Tuesday Aug 14th

this day Begins with fresh Breezes from S & W and clear weather steering S & E fetched up to A Pack or Ice luffed up to the wind hauled up on the wind mid Part Light winds and cloudy weather Running Along the Pack off Nath Bluff about 20 miles off shore the Pack very heavy ~~thick~~ ~~thick~~ clear weather one iceburg in sight Later Part Light winds and hazy weather looks like the fog is going to set in

Wednesday Aug 15th

this day Begins with light airs and calm Rainy weather Working to the windward the Pack to the Leeward mid Part calm a good weather Working over to the West shore to get Around the Ice employed in Repairing the Rigging the Ice opening But cannot do anything yet no wind about 20 miles off shore Later Part calm and cloudy weather

Thursday Aug 16th

this day Begins with light airs and calm Rainy weather Laying with the tide to the windward mid Part fresh Breezes from N & W and thick foggy weather kept off steering S & E Running along the Land saw the Pack Ice thick fog hauled the vessel up on the wind until it lit up kept off Running along the Pack Later Part Moderate Breezes and good weather

^{up} Hudsons Bay
Friday Aug 17

This day Begins with fresh Breezes from NW and foggy weather hauled Aback Laying until Daylight Mid Part Light airs and foggy weather kept off Steering S by E wind hauled Ahead Standing into the Land tacked off shore came to a heavy Pack of Ice tacked off heading E & Later Part Light winds and foggy weather

Saturday Aug 18th

This day Begins with Light winds from S & E and cloudy weather Steaming S & E saw some Ice tacked ship heading N Mid Part thick fog and Light winds and calms unbutton the mainsail and Repeared it Bent it Again see very little Ice Later Part calms and cloudy and heavy weather

Sunday Aug 19th

This day Begins with light Baffling winds and foggy weather Steaming E & E and clearing up a little fell in with a lot of scating Ice Mid Part Light winds from E & S & and shut in a thick fog hauled Aback could not see where we was going Later Part much the same trying to keep clear of the Ice until it clears up the Ice very sparse

Monday Aug 20th

This day Begins with light airs and calms thick foggy weather could not see to go Ahead Run Along side of a large cake of Ice Run out the Limes and Ice hooks and made fast lowered down the foresail and mainsail hauled down the ribs Mid Part cast off the Limes and got under way very light airs and calms some scating Ice around us sent down the cutting Penants and took in the cutting Stages Later Part calms and fine weather Lat 61.23 No Long

Tuesday Aug 21th

This day Begins with light air from NNE and hazy weather Steaming WSW saw plenty of Pack ice mid Part Moderate Breezes and thick foggy weather Steaming S by compass fog fog cleared away Set the Gaff topsail light winds and clear weather think we are running clear of the ice Pumped ship found she was leaking some about 100 strokes in 4 hours later Part light air and good weather Steaming S by W a little ice in sight see a few icebergs no Obstruction

Wednesday Aug 22th

This day Begins with moderate Breezes from ESE and foggy weather hauled the dibe to the windward saw one iceberg mid Part Strong Breezes and very foggy lit up a little and set in thick again later Part fresh Breezes and thick weather

Thursday Aug 23th

This day Begins with fresh Breezes from SW and clear weather Beating to the windward saw a few icebergs to the land mid Part moderate Breezes and good weather tacked ship standing into the land tacked off heading E by N Breezed up strong furlled the fore and main Gafftopsail Cringed Reefed the mainsail running along the land later Part fresh Breezes and foggy the Schooner leaks about 500 strokes in 24 hours Lat 60.15 No Long

Friday Aug 24th

This day Begins with fresh Breezes from SE and foggy weather hauled the dibe to the windward reefed the foresail and mainsail furlled the gafftopsail and flying jibe mid Part made all sail cleared up heading ENE sent down the Gaff topsail and Replaced it sent it up again calms and foggy wind hauled to the Northward Steaming SE by compass later Part light winds and foggy weather saw very little ice to day

Atlantic Ocean

Saturday Aug 25th

This day Begins with light winds from W & W and cloudy weather sighted Resolution Island Run in close to it kept off Steaming & by compass Mid Part Much the same sighted Button Island and Cape Whidley See no ice employed in lashing the Anchors on the Bow stowed down some on the Big Chain in the Main hatch Later Part Breezing on again Steaming & by compass

Sunday Aug 26th

This day Begins with light airs and calms cloudy weather Steaming & by compass Mid Part light winds and calms foggy weather employed in filling 4 casks with salt water and hauled the dib and flying dib and Repeared them Raised the Gallery off Decks a little Later Part light airs heading S & by compass thick fog

Monday Aug 27th

This day Begins with light winds from S & and clear weather heading W & W Tacked ship heading S & Mid Part Much the same saw one large Iceburg and a few smaller pieces employed in Repairing the Rigging Broke out water Later Part light winds and good weather

Tuesday Aug 28th

This day Begins with light winds from S & W and very fine weather heading S by E passed a few Iceburgs Mid Part light winds and clear weather one Iceburg in sight employed in taking out the Boat Gear and stowed it down the fore hatch Later Part light airs and clear heading S by compass Lat 60x23

Wednesday Aug 29th

This day Begins with fresh Breezes from S & and cloudy weather heading S & Tacked ship heading S W by W Mid Part fresh Breezes and Raining weather furlled the foretopail and main Gaff topail Later Part Much the same Lat 59-59

Atlantic Ocean

Thursday Aug 30th

This day Begins with light air and calms foggy weather
made all sail steering S by W mid Part Light winds and
clear weather winds hauled to S & and clear heading S & E
Later Part fresh Breezes and cloudy weather on the Starboard
Tack heading S & E Lat 59.21

Friday Aug 31st

This day Begins with fresh Breezes from S & and Rain squalls
heading S by Compass mid Part wind S W and fine clear
weather steering S & W by compass employed in Repeating the Riggings
Later Part Light winds and clear weather steering S & W by compass

Saturday Sept 1st

This day Begins with Moderate Breezes from W N W and
good weather steering S & W mid Part fresh Breezes and cloudy
weather steering S W by S stowed down the line tubs in the
After hatch saw a Bird to the windward steering to the
Eastward Later Part wind moderating and cloudy weather

Sunday Sept 2nd

This day Begins with strong Breezes from S W and thick fog
and Raining weather furled the mainsail set the topsail took
the Bannet off side close Reefed the foresail mid Part moderated
shook out the Reefs from the foresail set the foretopsail Later
Part moderate Breezes and good weather steering S by W
Lat 59.21 no Long

Monday Sept 3rd

This day Begins with light winds and good weather
steering S & W mid Part much the same lowered down
the foresail and mainsail and Reefed them wind
came around to E S E and Raining weather steering
S & W saw some Killers Later Part Light winds
and Raining weather No Lat

Atlantic Ocean

Tuesday Sept 4th

This day Begins with light airs and calms thick fog furl'd the foretop-sail mid Part Lamer'd down the foresail and mainsail breezed up set the foresail and foretop-sail strong breezes from NW close Reefed the foresail set the topsail took off the Bonnet off the Stile Late Part Moderate Calm and Rainy foggy weather Steering S & E

Wednesday Sept 5th

This day Begins with Moderate Calm from NW and Rain squalls furl'd all sails Run under Reefed Stile Moderated set the Doubled Reefed foresail and topsail mid Part Moderating and clear weather set the Single Reefed mainsail flying Stile Shock out the Reefs from the foresail Late Part Light winds and good weather heading S by compass

Thursday Sept 6th

This day Begins with strong Breezes from S and thick weather and Rainy furl'd the mainsail and Doubled the foresail Reefed the Stile and set the topsail heading ^{Reefed} NW by NW mid Part fresh Breezes and squally weather tacked ship heading S Late Part strong Breezes and heavy weather on the starboard tack heading S & W

Friday Sept 7th

This day Begins with strong Breezes from S W and Rain squalls heading S & W by compass mid Part Moderated a Little hauled down the topsail and set the mainsail and flying Stile tacked ship heading N N W the sea going down some more ship heading S W by S wind hauled to W S W Late Part Moderate Breezes and clearing up strong S W by compass under Doubled Reefed foresail single Reef mainsail Reefed Stile and flying Stile

Atlantic Ocean
Saturday Sept 8th

This day Begins with strong Breezes from W and Rain squalls
furl the mainsail and flying Jib Mid Part masted
set the flying Jib and shock out the Reef from the Jib set
the topsail and some finback whals later Part strong Breezes
and cloudy weather Steering S W by W by compass

Sunday Sept 9th

This day Begins with moderate Breezes from S W and cloudy
weather shock out the Reefs from the foresail and set the
mainsail heading W S W mid Part fresh Breezes and
cloudy weather shock out the Reef from the mainsail
tacked ship heading S W hauled down the Jib to Repair
it filled one cask or salt water later Part fresh Breezes
and cloudy weather heading S W Lat 51.35 one Long

Monday Sept 10th

This day Begins with light winds from S W and thick
weather heading W set the foretopsail mid Part light
winds tacked ship heading S W wind hauled to S W
Rain thunder and lightning furl the foretopsail
later Part moderate Breezes and Rain squalls Steering
W by compass no Lat

Tuesday Sept 11

This day Begins with strong Breezes from S W and Rain squalls
Steering S W close Reefed the foretopsail furl the mainsail
and flying Jib set the topsail mid Part moderated
shock out the Reefs from the foresail and mainsail
set the flying Jib set the foretopsail later Part light
winds from W S W and clear weather Steering S W by W
By compass Lat 50.00 Wednesday Sept 12th

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and faint smudges, characteristic of old paper. Along the left edge, the binding structure is visible, showing multiple layers of pages and a dark cover material. Faint, illegible handwritten text is visible along the left margin, appearing to be part of a list or index. The overall tone of the page is warm and slightly yellowed due to age.
